

ILGIN DOGAN

ilgindogan@berkeley.edu • Berkeley, CA • Personal Website • LinkedIn

EDUCATION	University of California, Berkeley	
	Ph.D. in Industrial Engineering and Operations Research	May, 2024 (expected)
	M.Sc. in Industrial Engineering and Operations Research	2019
	Middle East Technical University, Ankara, Turkiye	
	M.Sc. in Industrial Engineering	2018
RESEARCH INTERESTS	Methodologies: Sequential and Data-driven Decision Analytics, Statistical Learning, Optimization Theory, Principal-Agent Theory, Multi-Objective Combinatorial Optimization.	
	Applications: Sustainability Analytics, Supply Chain Management, Healthcare Analytics.	
RESEARCH PAPERS	Ilgin Dogan , Zuo-Jun Max Shen, and Anil Aswani. Repeated Principal-Agent Games with Unobserved Agent Rewards and Perfect-Knowledge Agents. <i>Preprint</i> .	
	Ilgin Dogan , Zuo-Jun Max Shen, and Anil Aswani. Repeated Principal-Agent Games with Unobserved Rewards: Learning Agents with Imperfect Knowledge. <i>Preprint</i> .	
	Yoon Lee, Ilgin Dogan , Anil Aswani, and Zuo-Jun Max Shen. Incorporating Fairness into Incentive Design in Principal-Agent Models with Adverse Selection and Moral Hazard. <i>Working paper</i> .	
	Ilgin Dogan , Zuo-Jun Max Shen, and Anil Aswani. Regret Analysis of Learning-Based MPC with Partially-Unknown Cost Function. <i>Under revision for IEEE Transactions on Automatic Control</i> .	
	Ilgin Dogan , Banu Lokman, and Murat Koksalan. (2022). Representing the Nondominated Set in Multi-objective Mixed-integer Programs, European Journal of Operational Research, Vol. 296 (3), pp. 804-818.	
INVITED TALKS	Repeated Principal-Agent Games with Unobserved Agent Rewards and Perfect-Knowledge Agents.	
	<ul style="list-style-type: none">• 2023, Annual POMS Conference, Orlando, FL.• 2022, INFORMS Annual Meeting, Indianapolis, IN.	
	Repeated Principal-Agent Games with Unobserved Rewards: Learning Agents with Imperfect Knowledge.	
	<ul style="list-style-type: none">• 2023, INFORMS Annual Meeting, Phoenix, AZ.• 2023, Annual POMS Conference, Orlando, FL.	
	Regret Analysis of Learning-Based MPC with Partially-Unknown Cost Function.	
	<ul style="list-style-type: none">• 2021, INFORMS Annual Meeting, Anaheim, CA.• 2020, INFORMS Annual Meeting, Virtual.	
	Representing the Nondominated Set in Multi-objective Mixed-integer Programs.	
	<ul style="list-style-type: none">• 2019, INFORMS Annual Meeting, Seattle, WA.• 2018, INFORMS Annual Meeting, Phoenix, AZ.• 2017, International Conference on MCDM, Ottawa, Canada.	

TEACHING EXPERIENCE	Industrial Engineering & Operations Research, University of California, Berkeley	
	<i>Instructor:</i>	
	<ul style="list-style-type: none"> • INDENG 151 - Service Operations Design and Analysis Fall 2022 Teaching effectiveness evaluation: 6.72 / 7.00 (Department average: 6.03) 	
	<i>Graduate Student Instructor:</i>	
RESEARCH EXPERIENCE	<ul style="list-style-type: none"> • INDENG 151 - Service Operations Design and Analysis Fall 2019, Fall 2020 Teaching effectiveness evaluation: 4.60 / 5.00 (Department average: 4.27) • INDENG 165 - Engineering Statistics, Quality Control, and Forecasting Spring 2020 Teaching effectiveness evaluation: 4.62 / 5.00 (Department average: 3.95) 	
	Haas School of Business, University of California, Berkeley	
	<i>Reader:</i>	
	<ul style="list-style-type: none"> • UGBA 141 - Production and Operations Management Spring 2021 	
INDUSTRIAL EXPERIENCE	Department of Industrial Engineering, Middle East Technical University	
	<i>Undergraduate and Graduate Teaching Assistant:</i>	
	2015 - 2018	
	<ul style="list-style-type: none"> • Courses: Stochastic Optimization with Applications / Management Accounting / Engineering Economy / Engineering Statistics, Quality Planning and Control / Quality in Engineering Management / Special Topics in IE: Multi-objective Combinatorial Optimization. 	
INDUSTRIAL EXPERIENCE	University of California, Berkeley	
	2019 - present	
	<i>Graduate Student Researcher</i> - Department of Industrial Engineering & Operations Research	
	Turkish Scientific and Technological Research Council (<i>NSF-equivalent</i>) 2016 - 2018	
INDUSTRIAL EXPERIENCE	<i>Research Scholar</i>	
	<i>Project:</i> Nondominated Points of Multi-objective Integer Programs: Approaches and Applications	
	<ul style="list-style-type: none"> • Developed efficient algorithms that aim at producing a small number of representative non-dominated points (up to 50% less than the existing approaches) while satisfying a prespecified coverage gap value for combinatorial multi-objective mixed-integer programs. • Conducted extensive simulation experiments in C using CPLEX for mixed-integer knapsack and assignment problems with up to 5 objectives. 	
	Middle East Technical University (METU)	
INDUSTRIAL EXPERIENCE	2015 - 2016	
	<i>System Design Project Analyst</i>	
	<i>Project:</i> Designing a sustainable and data-driven in-campus transportation system (bike-share and shuttle services) for the METU, Ankara campus (11,100 acres).	
	<ul style="list-style-type: none"> • Collected and wrangled categorical and numerical data using SQL. Performed root-cause analysis. • Developed a multi-objective optimization model considering the conflicting goals of different stakeholders in a large socio-technical system. • Conducted empirical analyses on real data using a simulation model developed in Arena. • Achieved a 15% decrease in total travel distances of the shuttles (due to the increase in the non-motorized trips) and a 5% decrease in the average travel time per person in the transportation network. 	
INDUSTRIAL EXPERIENCE	Meta	
	Summer 2022	
	<i>Research Data Scientist Intern</i>	
	Infrastructure Strategy Data Science, Menlo Park, CA	
INDUSTRIAL EXPERIENCE	<ul style="list-style-type: none"> • Project: Targeting viewers and broadcasters for providing ultra-low end-to-end latency during live streams. 	

- Developed a framework that includes several components from implementing data analysis, building and maintaining data pipelines, developing and productionizing machine learning models.
- Achieved 70% precision and 63% recall with 91% coverage of total latency-sensitive broadcast watch time with the proposed classification model.

Robert BOSCH GmbH

Summer 2015

Long-term Project Intern

Department of Deployment of Business Excellence, Bursa, Turkiye

- Project: Enhancing deployment of continuous improvement techniques in the organization by following the Kaizen and lean manufacturing methodologies.
- Developed statistical quality control models to facilitate process improvement in the organization.
- Experienced the company culture, attended weekly departmental meetings. Presented the project results to the executive management.

BAUER Casings

Summer 2014

Service Operations Intern

Department of Production Planning, Ankara, Turkiye

- Monitored and reported on daily data using company's ERP database system.
- Gained understanding of a complete flow of production and operational processes in the plant.
- Experienced the company culture, attended weekly departmental meetings.

HONORS, FELLOWSHIPS, AND AWARDS

- IEOR Faculty Fellowship, University of California, Berkeley, 2021.
- Outstanding Graduate Student Instructor Award, University of California, Berkeley, 2021.
- Ph.D. First-year Fellowship, IEOR, University of California, Berkeley, 2018-2019.
- Graduate Research Fellowship, TUBITAK (*NSF-equivalent*), 2017-2018.
- Graduate Courses Performance Award, METU, 2018.
- Dean's High Honor List in B.Sc., Department of Industrial Engineering, METU, 2016.

COMPUTER SKILLS

- Programming Languages: C, Python, SQL.
- ML Frameworks & Libraries: Scikit-Learn, SciPy, Pandas, NumPy, Matplotlib.
- Tools: LaTeX, Microsoft Office.
- Statistical Softwares: RStudio, Minitab.
- Optimization Softwares: Gurobi, CPLEX, GAMS.
- Simulation Softwares: Arena (Siman).

SERVICES AND SOCIETY ACTIVITIES

- **Session Chair:**
 - "Responding Climate Crisis with Data-Driven OM" in 2023 INFORMS Annual Meeting.
 - "Incorporating AI into Healthcare Delivery" and "ML for Healthcare Applications" in 2022 INFORMS Annual Meeting.
- **Reviewer:** INFORMS Journal on Data Science.
- **Participant:** POMS Doctoral Consortium, 2023.
- **Participant:** INFORMS Doctoral Student Colloquium, 2020.
- **Participant:** Theory of Reinforcement Learning Boot Camp, Deep Reinforcement Learning Workshop, by The Simons Institute for the Theory of Computing, 2020.
- **Member:** INFORMS, POMS, MCDM.
